

Daniela Colombo

Full stack developer / Mobile developer / graphic designer

mail: danielaelinacolombo@gmail.com cel: +34 611574085 web: [portfolio](#) gitlab: [gitlab](#)

Background

Certified full stack developer with 4+ years of experience. I earned my Bachelors in Graphic Design at the University of Buenos Aires and I was a member of the DyEG Department of FADU-UBA as a teaching assistant. As a developer, I'm comfortable working with React, React Native, TypeScript, Django and responsive web design to deliver exceptional customer experience. I have proven experience in creating and designing software, combining my technical knowledge with my keen eye for design to create beautiful interfaces. My goal is to build applications that are scalable and efficient under the hood while providing engaging user experiences.

Relevant Experience

Mobile dev at Digbang

July 2021 // Present

Currently working with a team of nine developers on multi platform [application](#) built with React Native, Mobx, Google API, MercadoPago API and Laravel Doctrine.

Front end developer at Fixenova España

Freelance 2021

Designed and developed a web [quoting app](#) with TypeScript, React, and AWS Lambda.

Full stack developer at gcoop co-op

May 2019 // 2021

Worked with a team of five devs on building and upgrading apps with Typescript, React, React Native, NextJS for the frontend and Drupal 8 / Django for the backend. Collaborated with multidisciplinary teams of devs and designers on a daily basis and I was in charge of the onboarding / code review for the team's incoming developers.

Front end developer at uosolutions

Jan 2018 // May 2019

Developed and maintained code for client websites using HTML/CSS/Sass and JavaScript. Testing sites in multiple browsers and devices to ensure cross-browser compatibility and mobile responsiveness.

Web developer and media manager at Editorial nodo gráfico

May 2014 // March 2018

Worked with a team of two designers to build an online graphic design and printing services agency. Used HTML/ CSS and JavaScript and tools such as Figma, Photoshop and InDesign. Developed all targeted content for many media platforms.
