Background

I'm currently a full stack developer at gcoop cooperative. I earned my Bachelors in Graphic Design at the University of Buenos Aires and I'm a member of the Design and Gender Studies Department of FADU-UBA as teaching assistant. As a developer, I enjoy bridging the gap between development and design, combining my technical knowledge with my keen eye for design to create beautiful interfaces. My goal is to always build applications that are scalable and efficient under the hood while providing engaging user experiences.

Relevant Experience

Full Stack developer at gcoop cooperative

May 2019 // Present
Worked with a team of five developers on web applications built with React Native and Drupal 8. Also used Django, Graphene, Django Rest Framework, React, React hooks, Next JS, Docker, Docker Compose, Lando, Grunt, Composer. Communicated and collaborated with multi-disciplinary teams of developers and designers on a daily basis. I'm in charge of code reviewing of the new developers of the team.
