Daniela Colombo

Graphic designer & Full Stack Developer

✉ danielaelinacolombo@gmail.com   ☏ +54 1139560712   ⌂ procnedc.github.io/resume   ⊙ procneDC

Background

I'm currently a designer & web developer at gcoop cooperative. I earned my Bachelors in Graphic Design at the University of Buenos Aires and I'm a member of the Design and Gender Studies Department of FADU-UBA as teaching assistant. For many years I was a beneficiary of the sarmiento scholarship: a financial aid (res. 289-15) that allowed me to finish my degree, it makes me happy being able to return something and stay in touch with the university.

As a front-end developer, I enjoy bridging the gap between development and design, combining my technical knowledge with my keen eye for design to create beautiful interfaces. My goal is to always build applications that are scalable while providing engaging, pixel-perfect user experiences.

Relevant Experience

Web developer @ gcoop cooperative
May 2019 // Present

▷ Worked with a variety of different languages, frameworks and content management systems such as Drupal 8, PHP, Moodle, Javascrypt, React Native, Node.js, etc.
